Allowable Subject Matter

Claims 1-27 and 29-34 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-13 and 32 are allowed because claim 1 specifically requires creating at least one sample garment for each body type in a range of sizes using non-linear grading rules and preparing a block for each sample garment for each body type after applying the non-linear rules and checking on a fit model.

Claims 14-21, 30, and 33 are allowed because claim 14 specifically requires one or more non-linear grading rules to create the at least one sample garments in a range of sizes for each body type of the target consumer group and at least one second fit model for each body type selected from the target consumer group and used to perfect the fit of the sample garment and prepare a number of custom fit garments for each body type of the target consumer group.

Claims 22-26 are allowed because claim 22 specifically requires applying non-linear grading rules to the sample garment to obtain sample garments for the entire size grouping.

Claim 27 is allowed because it requires that the grading rules comprise applied grading rules that linearly grade the garment from a selected size in a size grouping and preferred grading rules that non-linearly grade the garments from a selected size in the size grouping wherein the combination is used to prepare a number of custom fit garments,

Art Unit: 3765

Claim 29 is allowed because it specifically requires using non-linear grading rules to obtain new sizes above and below the first garment size.

Claim 34 is allowed because it specifically requires using non-linear grading rules and at least one real fit model for each body type.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
